RAPHA COMMENTS:

HEAT TRANSFERS:

Increase gap between chest Novantasei and Rapha logos by 1cm to 13.5cm

Ensure chest Novantasei and Rapha logos are an even distance from the CF

Back Novantasei logo is 0.5cm higher than requested. Please keep as sample

Chest Novantasei and Rapha logos are 1cm higher than requested but please keep as per sample - 9cm from CF neck

Chest Novantasei and Rapha logos should be aligned *SEE IMAGE FOR REFERENCE*

Chest Rapha logo is not straight. Please improve this in bulk production

We are currently testing with Dongguan if it is possible to add Dongguan Better New Material RAPHABL27A01 into the inside. We will confirm whether this is to be added when we get the results

FIT:

BDY13 Hem Width Relaxed is +2cm. Please bring back to sepc for bulk production

NE32 Front Neck Drop is +1.1cm. Please bring back to spec for bulk production

NE33 Back Neck Drop is +0.8cm. Please bring back to spec for bulk production

Flatlocked green stitching position on front and back is approved and size chart has been updated to be as per sample

CONSTRUCTION:

Rib hem attachment is very wavy. This is likely due to the rib being +2cm. Please improve this when the measurements are brought back to spec *SEE IMAGE FOR REFERENCE*

Hem overlocking is very untidy with cut threads and frayed edges. Please take care to improve this *SEE IMAGE FOR REFERENCE*

Back neck binding has a lot of bulk underneath from seam allowance. Please take care when finishing this area so it lies as flat as possible *SEE IMAGE FOR REFERENCE*

Ensure all loose threads are trimmed

Kate Fleming Dec 18, 2025 3:47 PM

ACTION:

- Please share a graded pattern layplan for us to check the flatlocking seams on other sizes
- Please proceed to **SEALER SAMPLE** and send to Rapha HQ
- Sizes: Please see supplier request
- Please submit the pattern along with physical sample + cost breakdown
- Please ensure all above amends are actioned for the **SEALER SAMPLE**. Due date 30/03/26
