LAYOUT INFO

Trimco standard care label have a sewing allowance of 10 mm.

In addition there is a 3mm free space from this allowance to where print can start.

The free space from bottom edge to printed text is also 3mm.

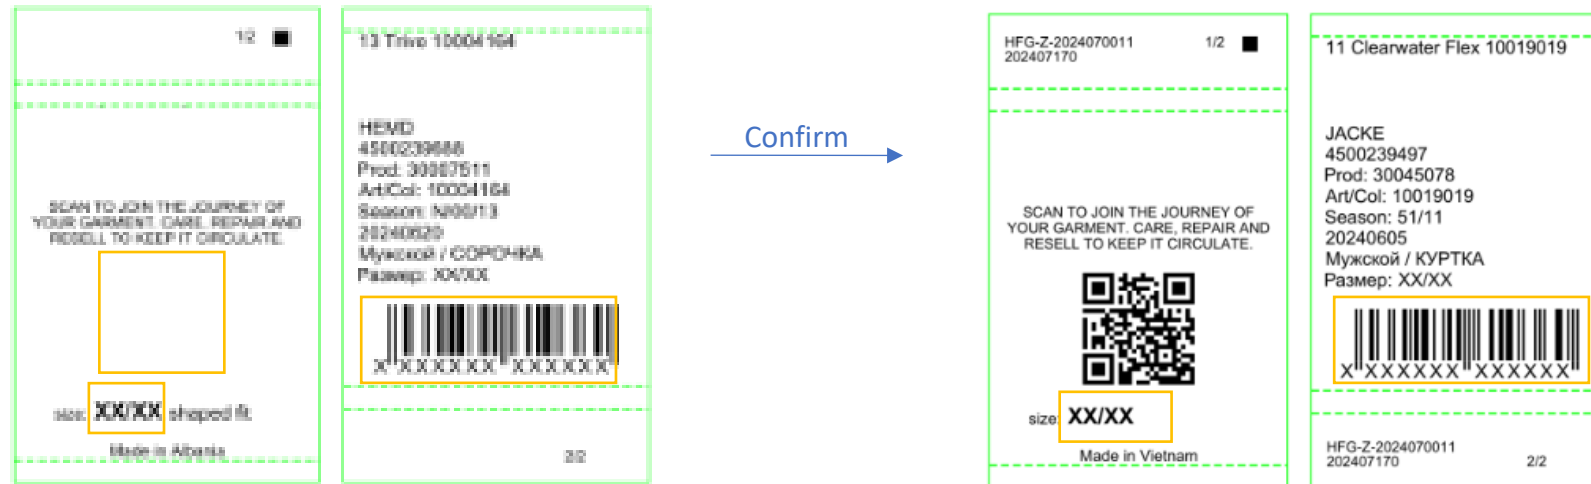

The space on the long sides are 2mm on each side.

In the sewing allowance area Trimco print their own reference number for production purposes. You can also see the page number, which helps you place the pages in correct sequence if many.

Previews (both draft and confirmed) only shows sizes and EAN as XXX.

These placeholders will be replaced in production with the needed sizes/codes mentioned in the order.

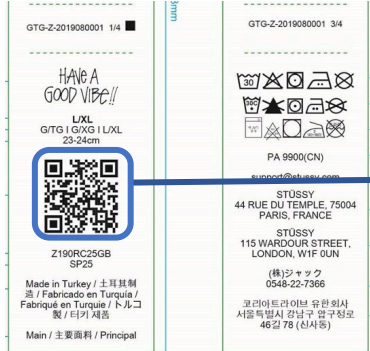

Draft orders will show blank space instead of the QR code. QR Code is generated after order confirmation.

Confirmed order

If you scan the QR Code directly after artwork generation, it will not be linked to the data yet. Please give system some time to generate landing page

QR

Scan QR: the landing page displays the Care & Content in several languages. For Stussy we have additional languages in QR that are not printed.

Section with style info, English only

Flags representing different languages.

Click on a flag, and the translations for Care and Content will display in that language.

Special note on French:

For AGEC regulation, this info only display under the French flag: Microfibre claim, Recycled percentage & COO*3

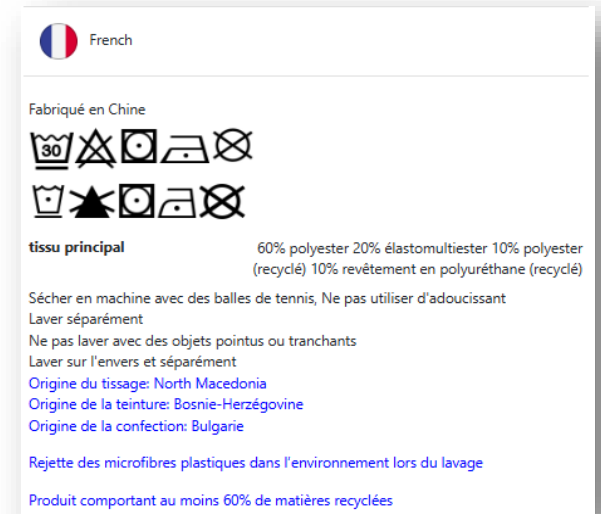

Origin of fabric:

Origin of dyeing:

Origin of CMT:

Microfibre claim (if over 50% synthetic fibres):

Select **Required Label** you wish to order from the Item Ref 1: drop down list.

Information required by the French market.
Please select.

AGEC fields

Origin

Please select from drop down list where the **fabric** been

- 1) woven
- 2) dyed
- 3) sewn together into a garment (CMT= cut-make-trim)*

**This should be same as the "Country of origin" further up in the form*

Microfibre claim:

If the garment contains **50% or more synthetic fibres** by weight select **YES**.

If less than 50% synthetic fibres by weight, you select "NO".

AGEC also require the “Recycled content%” entered and calculated in the fabric-section (see separate slide)

Synthetic fibres are for example: Acrylic, Acetate, Modal, Polyester, Elastane, Elastomultiester, Polyamide.
Please note that Viscose is not considered a synthetic fibre.

Style call out and helpful info..

COMPONENT NAMES

Component list per 2025.06.01
Please always refer to 1Label system for latest updated list.

If you are missing any part names, please contact Ling Tsang -
ling.tsang@trimco-group.com

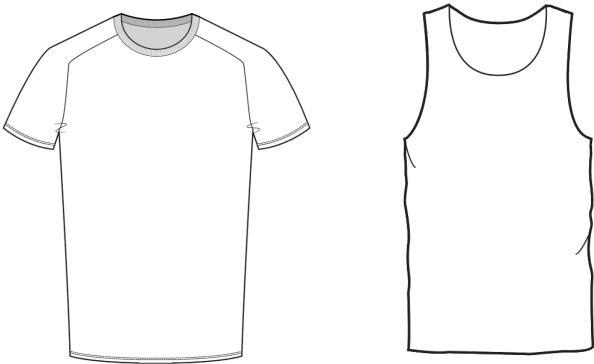

Please see next slide for some instructions on how to pick components.

| |
|---------------|
| Backing |
| Body |
| Body lining |
| Collar |
| Cuffs |
| Face fabric |
| Fill |
| Inner |
| Lining |
| Outer |
| Padding |
| Palm |
| Main fabric |
| Sleeve lining |
| Sleeves |
| Top |
| Trim |

Have you called out the garment parts correctly?

- Components/ Parts need to be called out if more than one, and if different composition. Lining and filling/padding always need to be called out if there is one.
- If style only have 1 part, no need to call it out.
(Example; no need to call out 'Body' for plain T-shirt)
- Merge parts if possible, when they have the same fibre composition.
(Example; sleeve lining + hood lining + lining, all in 100% polyester → Lining)
- When dealing with only a very small part of the garment, you do NOT have to call it out.
(Example; you do NOT need to call out small trimmings or rib. ***see exempt-list**)

If garment only is made out of one component; no need to add a part name in.

| Component | Fabric | % |
|-----------|-----------|-----|
| | Polyester | 100 |

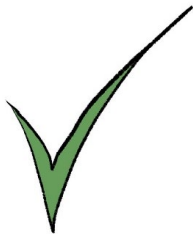

| Component | Fabric | % |
|-----------------|-----------|-----|
| Body | Polyester | 100 |

If garment have components with different content, they must all be called out. Unless they are too small – see exemption list.

| Component | Fabric | % |
|-----------|-----------|-----|
| Body | Polyester | 100 |
| Sleeves | Cotton | 100 |

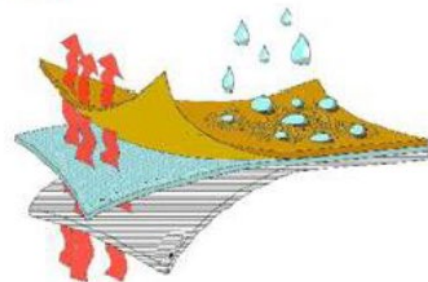

| Component | Fabric | % |
|----------------|----------------------|----------------|
| Body | Polyester | 100 |
| Sleeves | Cotton | 100 |
| Rib | Polyester | 100 |

Fabric I

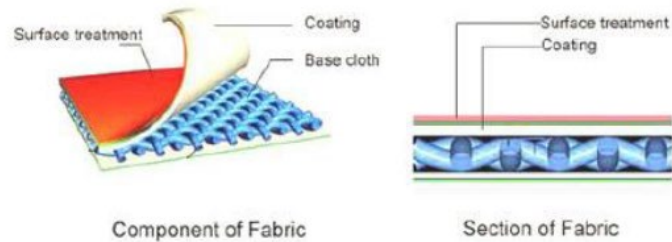

3-Layer composite/multi-layer fabric:

| LAYERS | PART NAME | CALL OUT Y/N |
|-----------------------|----------------|-------------------------------------|
| Face fabric (yellow) | face of fabric | Textile, yes |
| Membrane (blue) | middle | Non-textile, optional* ² |
| Back fabric (striped) | back of fabric | Textile, yes |

Label:

Face of fabric: 100% yellow material
 Back of fabric: 100% striped material

Fabric II

NON-composite/ NON-multi-layer material

| LAYERS | PART NAME | CALL OUT Y/N |
|-------------------------------|-----------|---|
| Surface treatment (orange) | x | Non-textile, fabric finish* ¹ , no |
| Coating* ¹ (white) | x | Non-textile, optional* ² |
| Fabric (blue) | Fabric | Textile, yes |

Label:

Shell: 100% blue material – Polyurethane coated
 OR
 Shell: 100% blue material
 Coating: Polyurethane

!! NON-textile = NO %

Example List (may not need to be called out on care label):

- Components less than 30 % of the total weight of the textile product and are not main linings
- Decorative fibers less than 7% of total garment weight
- Fillings without any insulation function
- Inner linings, backing, facing, inter linings
- Labels & badges
- Edgings, selvedge and trimmings not forming an integral part of the product
- Buttons and buckles covered with textile materials
- Accessories and decorations
- Non-elastic ribbons
- Elastic threads and bands
- Fatty substances; binder; weightings; sizing; impregnating product; additional dyeing and printing products
- Stiffening's and reinforcements
- Interlinings and canvas backings; underlying fabrics
- Zipper puller and zippers

CARE PHRASES

Care instructions per 2025.06.01

Please always refer to 1Label system for latest updated list.

If you are missing any instruction, please contact Ling Tsang -ling.tsang@trimco-group.com

Please see next slide for some instructions on how to pick phrases.

Do not iron decoration

Do not use softener

Do not wring or twist

For best results dry clean

Iron on reverse

Remove promptly from washing machine

Wash inside out

Wash separately

Wash with similar colours

CARE PHRASES

Do you need all the care phrases?

- A care phrase only needs to be added **to prevent irreversible damage to the garment**
- Some phrases are not always needed, only added by habit.
- Some phrases are not needed if correct care icons are added.

We are happy to help you if unsure how to call out garment parts and select correct care instructions!

- Please contact CS for support

FIBER NAMES

FIBER NAMES

FIBER list per 2025.06.01

Please always refer to 1Label system for latest updated list.

If you are missing any fibers, please contact Ling Tsang -
ling.tsang@trimco-group.com

Please see next slide for some instructions on how to pick correct.

| |
|---------------|
| Acrylic |

FIBER NAMES

Please find a list of common fibre name requests:

- RAYON – Please select VISCOSE
- SPANDEX – Please select ELASTANE
- BCI COTTON – Please select COTTON
- FLAX – Please select LINEN
- POLYAMIDE – is same as NYLON

When does the label need
'Contains non-textile parts of animal origin' ?

Fabric

Polyester - polyurethane coa

Leather – Cow

Contains non-textile parts of

Please **NOTE!!**

Leather, down/feather, pearls, shell, bone etc. are classified as 'non-textile parts of animal origin'.

It is a **legal requirement** in the EU to have **'Contains non-textile parts of animal origin'** on the care label when your garment contains any of the above-mentioned materials.

NOTE!: This does NOT apply to wool.

Add this as the **last** input under FABRIC, when applicable for the style.
