TONAL DISCHARGE PRINT REFERENCE

PRINT TECHNIQUE

• We are open to either discharge print, discharge print with pigment or screenprint whichever will best match the reference images and match our notes below.

PRINT COVERAGE / COLOUR

- We like this effect where the print looks like it is faintly applied and some of the ground colour can be seen through the print.
- The print colour contains elements of the ground colour, this is key to the look we are trying to achieve.

HAND FEEL

• We like the seamless effect where the grain or weave of the fabric can be seen in the print and is not layered on top of the fabric but appears as if it is inside the fabric.
