

The diagram is a complex geometric layout, likely a floor plan or a technical drawing, composed of various rectangular and square sections. The sections are labeled with letters (L, M, X) and symbols (gamma, lambda). The layout is organized into several main areas:

- Top Section:** A large rectangle divided into several smaller sections. The top row contains three sections labeled γ , γ , and γ . Below these are sections labeled γ , γ , and γ . The bottom row of this section contains sections labeled γ , γ , and γ .
- Middle Section:** A large rectangle divided into several smaller sections. The top row contains three sections labeled γ , γ , and γ . Below these are sections labeled γ , γ , and γ . The bottom row of this section contains sections labeled γ , γ , and γ .
- Bottom Section:** A large rectangle divided into several smaller sections. The top row contains three sections labeled γ , γ , and γ . Below these are sections labeled γ , γ , and γ . The bottom row of this section contains sections labeled γ , γ , and γ .
